

THE QUESTION GETS SERIOUS

Captain Johnson Reports That He and Agent Downs Are At Cross Purposes.

MAJOR FOR SEVERE MEASURES

Commissioner Leupp Considers Report A Reflection on Bureau and Stands by Downs.

Washington, Nov. 1.—A very serious breach has arisen between the Ute Indians at Thunder Butte Station, S. D., and their agent, Maj. Downs, and there is danger of a hostile collision at any moment, according to the report of Capt. Johnson, the army officer who was sent to the scene of the trouble in the effort to placate the Indians, who are said to have unlimited confidence in him. Capt. Johnson reports that the Indian agent and himself are at cross purposes, and his report, dated yesterday, appeals to the authorities here to support him and cause Maj. Downs to abate harsh treatment of the Indians.

The report says that the Indians objected to sending their children to a distant boarding school; also that the agent cut the rations in half; that the Indians wish to live in peace, but that Downs refused to consider their promise to comply with his orders. Capt. Johnson says the Utes are hungry and suffering, and believes they have been unjustly treated.

He says they asked him to act as arbitrator, and they would accept the result. "The agent," Capt. Johnson says, "put a veto to the head men to this effect: 'Would they obey him in the school matter and in all the regulations?' They replied they wished to see Capt. Johnson. This appears to have incensed the agent, who required them to cast their votes at once. This council all voted 'no,' and then followed the excitement which caused the call for volunteers and troops to be sent to the Ute camp to compel them to comply with the agent's wishes. "I told the Utes that I should expect them to retract their vote this morning. They informed me that they would gladly obey the agent in all matters of regulations. I presented this decision to Maj. Downs, who refused to consider their promise. Harsh and severe remedies are to be applied. One hundred pounds of flour and a little patience is a more potent factor in the solution of this problem than the 100 soldiers."

Commissioner Leupp of the bureau of Indian affairs accepts Capt. Johnson's report as a reflection on that bureau. Citing the fact that the affected Utes have refused to work for railroad companies, one of which contemplated paying them \$2 per day for labor only 15 miles from their present home, he said:

"Johnson has the theory that the way to handle troublesome Indians is to set them off and feed them. That is not the Indian office theory. This office believes in applying the same rule to Indians that is applied to poor and ignorant men of any race. We believe in finding work for them, and then in permitting them to go hungry if they will not accept the opportunity to make a living. These Utes contemptuously declined to work, saying that the government would take care of them. I am perfectly willing to stand responsible for all the advice I have given in the matter, which has been that we should treat the Indians kindly, but insist that they shall cease to be paupers when there is work at which they can earn good wages practically at their doors."

METHODIST BISHOP SAYS ROMANISM IS PAGANISM.

Spokane, Nov. 1.—The biennial meeting of the board of bishops of the Methodist Episcopal church opened its work here today with 12 bishops present from all parts of the civilized world. Eight or 10 more bishops will come tomorrow. The bishops were entertained at a broken down, new edifice of the First church tonight.

Catarrh of The Stomach

A Most Dangerous Disease, Which Causes Serious Results, Unless Properly Treated.

Catarrh of the Stomach is very common and is known as one of the most obstinate diseases, which, when neglected or improperly treated with cheap patent medicines, tonics, drugs, pills, and other secret quick remedies results in a broken down constitution and often consumption and death.

Catarrh of the Stomach, like every other disease of the stomach, except cancer, is the result of poor digestion. The digestive organs have become weak, there is a lack of gastric juices, your food is only half digested, and as a result you become affected with loss of appetite, pressure and fullness after eating, heartburn, vomiting, water-brash, tenderness at pit of stomach, slimy tongue, bad taste in the mouth, constipation, pain in limbs and face, sleeplessness, nausea, belching of gas, diarrhoea, sick headaches, dizziness, mental depression, nervous weakness, and many other common symptoms.

If your stomach cannot digest the food you eat, then the stomach needs a rest, as that is the only way you can get rid of your catarrh, but in the meantime your body needs plenty of nourishment, because you must live and in order to live you must eat, and if you must eat, your food must be properly digested, and if your stomach is too weak to do the work, then you must get a substitute that will do the work.

Stuart's Dyspepsia Tablets are the only known substitute that will digest your food as well as any healthy stomach. They contain vegetable and fruit essences, aseptic pepsin (gov. test), golden meal and dicalcase, the very elements necessary to digest all foods.

CURED AFTER SIX YEARS OF SUFFERING

Chronic Stomach Trouble Pronounced Incurable by Physician Yielded to the Tonic Treatment Although Patient Had No Faith In It.

"For six years I suffered untold misery from stomach trouble," says Mrs. H. P. Flanagan, of Canton, South Dakota, "although I was treated by four physicians. No two agreed as to the nature or cause of my disease. One said I had ulcers of the stomach, another that it was chronic stomach trouble and incurable, another called it neuralgia.

"The pain was dull, not sharp, and when I walked or rode noticed that it was a great deal more severe. It was relieved when I rested or would lie down. I had no appetite and didn't care to eat at all. I tried to eat to keep up my strength but the pain was there whether I ate or not. I was run down in strength and weight.

"My husband read of Dr. Williams' Pink Pills and persuaded me to try them. When I began to take the pills I had no faith in them whatever but I had found no relief in anything else so I tried them. I took about three boxes and am so well now that I eat everything I want to. I have no trouble with my stomach and have no doubt that my cure is complete. My general health is good and I have gained in weight. I can and do recommend Dr. Williams' Pink Pills to any one suffering from stomach trouble."

Dr. Williams' Pink Pills do not simply deaden pain; they cure the trouble which causes the pain. They are guaranteed to contain no narcotic, stimulant or opiate. For rheumatism, indigestion, nervous headaches, many forms of weakness and debility Dr. Williams' Pink Pills are recommended even if ordinary remedies have been tried without relief.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y. A copy of our diet book will be sent free.

COUNTRY GOES ON CHECK BASIS

Business Has Felt the Effects of Last Week's Financial Disturbances.

TRADE IS SOMEWHAT UPSET.

Jobbing and Retail Activities Affected While Collections Have Been Slower.

New York, Nov. 1.—Bradstreet's tomorrow will say:

The country at large has this week felt the after effects of last week's financial disturbances at New York and other eastern cities. Prompt limitation of New York's action in curbing and limiting the source of these disturbances has, however, allowed of necessary readjustments to meet changed conditions with a probable minimum of immediate friction and without the sacrifices found necessary at the metropolis. The entire country, in fact, may be said to have gone upon a check or credit basis pending the passage of the uncertainty, which seems to have almost entirely calmed down. Naturally, there has been some dislocation of the country's business, notably in the item of the domestic six changes, which has reacted on the collecting and forwarding forces by for a time stopping the buying of wheat in the northwest and of cotton in the south, and there has also been a sensible quieting down of jobbing trade activities, some reduction of forces in railroad improvement work and other industries, and some effect also upon retail trade, which, however, aided by fine fall weather, has given a good account of itself this week. Naturally, collections have felt some effect of the disturbance.

The iron and steel industry reports new demand quiet as a whole with a tendency to ease in prices, and the leading interest notes a moderate reduction in the volume of unfilled orders. That there is a very large business doing in many lines in the country is, however, evidenced by the widespread reports of car shortage affecting the movement of grain at Buffalo, of coal at all leading points east and west, of lumber in the Pacific northwest.

Business failures for the week ending Oct. 31 number 22, against 280 last week, 163 in the like week of 1906, 160 in 1905, 200 in 1904 and 216 in 1903. Canadian failures for the week number 25, against 39 last week and 21 in this week a year ago.

Wheat, including flour, exports from the United States and Canada for the week ending Oct. 31, aggregate 4,792,349 bushels, against 4,765,585 last week, 4,492,274 this week last year and 6,672,888 in 1901. For the first 18 weeks of the fiscal year the exports are 68,267,815 bushels, against 62,666,661 in 1906-7 and 105,991,486 in 1901-2. Corn exports for the week are 666,340 bushels, against 749,122 last week and 1,400,211 in 1906. For the fiscal year to date the exports are 17,360,273 bushels, against 14,617,179 in 1906-7.

Topeka, Kan., Nov. 1.—In an address here tonight, Senator J. P. Dolliver predicted that the army canteen will never be re-established. Continuing, he said:

"We see sometimes statements from army officers and even from the wives of army officers that they regret the abolition of the army canteen, but I want to say to you in my opinion never again will the day come when we shall see the soldier of our uniforms assigned to the business of bartenders."
